DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Claim Objections

Claim 38 is objected to because of the following informalities: the 8th line of the claim contains a typo. The claim states that 1.5 kilograms per micrograms of pegylated interferon are administered when the units should be “micrograms per kilogram” to be consistent with the teachings in the specification and the claims. This objection also affects claims 39-44.

Appropriate correction is required.

Specification

The disclosure is objected to for failing to adhere to the requirements of the sequence rules. Applicant must append SEQ ID Nos. to all mentions of specific amino acid sequences comprising four or more amino acids and ten or more nucleic acids in the specification. Specific examples within the specification that do not comply with the sequence rules are found on page 12, line 31 to page 13, line 1. Applicant is required to append a SEQ ID NO. to any sequence applicable to the rule. See 37 CFR § 1.821 (a)-(d) and MPEP § 2422.

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
